**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 05/06/2005 has been entered.

***Allowable Subject Matter***

1. Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance: Independent claim 1 establishes a hinge module, which mechanically connects a main body to a folder in a portable telephone. The hinge cam has a pair of angled portion on the surface of the hinge cam, which faces the hinge shaft. The angled portions have a steep slope and a gentle slope, which are laterally asymmetrical to each other.

This limitation is neither disclosed nor suggested in the references of Yi et al. (U.S. 6292980).

Yi discloses a hinge module for mechanically connected a main body to a folder in a portable telephone. The hinge modules disclosed by Yi are mounted in an asymmetrical manner. However, Yi does not teach a pair of angled portions on the surface of the cam, which have two slopes laterally asymmetrical to each other.
